

TORK® Think ahead.

Tork PeakServe Continuous Hand Towel System

Bring it on

Tork PeakServe® gets your business ready for the moments that matter.

250%
more hand towels
towels for less
refilling and better
washroom flow*

For all those critical moments...

When halftime is over, the exams start in 15 minutes or the next shift is about to begin, you don't want to worry about dirty washrooms or people stuck in line. Yet, many people find that public venues and workplaces don't deliver the washroom experience they expect in terms of cleanliness and waiting times. The consequences include reduced customer preference, productivity loss and lower well-being among guests, visitors and employees, which in the end can have a big impact on revenue and profitability.

Tork PeakServe® can help you live up to these ever increasing demands, where little things can make it or break it for your business.

...that really count.

With up to 2100 towels per dispenser, Tork PeakServe® enables:

- **More time for cleaning**
- **Better washroom flow**
- **Increased capability to excel during critical moments**

Tork PeakServe® is the perfect solution for:

Recreation, Retail and Transport Terminals

More people means more business – but also more challenges to efficiently deliver a pleasant experience, especially when facing unpredictable peaks in traffic.

Airports

The number of passengers travelling through airports each day is huge. Ease of air travel and numbers of people using this mode of transport also means a risk of spread of disease and viral infection.

Offices

Providing good work environments that improves employee well-being and reduces sick leave is a challenge. Not to mention conveying the right image to visitors.

Higher Education

Students spend most of their time at campus. That makes 24/7 availability of hand towels important for proper hand hygiene standards – a crucial factor for lowering cross-contamination risks and absenteeism.

Healthcare

Public washrooms in healthcare facilities are hard to consistently maintain at a high hygiene standard due to irregularly fluctuating traffic. Wasting time on dispenser checks means less time for other cleaning.

Industry

A second is always a second, no matter where it comes from. Lack of hand towels during busy shift changes can make hand washing a time-consuming task that keeps workers off the floor.

Our latest innovation explained

Our new hand towels are compressed to fit twice as many in less space. The system is continuous: bundles latch onto each other when loaded and towels are connected so they dispense with no interruption.

The result is a new standard of smooth, continuous towel flow and a dispenser that stays slim yet has 35% more capacity than any other product on the market.*

Bundles are compressed by 50% giving up to 2100 towels per dispenser*

Continuous bundles latch together as bundles are loaded

Bundles dispense without interruption one towel at a time

*Compared to Tork Universal refills and folded towel dispenser 552000

Get ready for the moments that matter with Tork PeakServe® Continuous™ Hand Towel System

A new standard in high-capacity dispensing

Fewer washroom delays get people in and out faster

- **Avoid run outs with 250% more hand towels*** and lower consumption thanks to one-at-a-time dispensing
- **Faster dispensing serves users in 3 seconds –** quicker than jet air drying time
- **Taking a towel is always smooth and easy** with our patented continuous towel system

More flexibility means more time to clean

- **Top up when it suits you** with up to 600 more visitors and employees served between refills*
- **Double the towels you can carry** as they're compressed by 50%*
- **Cut refilling time in half** with up to 2100 towels per dispenser*
